9 January 2004

In July 2003 our Club was fortunate in obtaining a \$65,000 grant from the Queensland Government to cover two thirds of the cost of a retractable shade canopy to be built over our bowling green.

After having seen the Greensafe shade canopies covering the two greens at Diggers Bowls Club in Rockhampton, and on recommendation from a large Club in Brisbane we chose Greensafe Pty. Ltd. to supply and erect a similar unit at our Club. We were also aware that Greensafe Pty. Ltd. had successfully supplied and erected six or seven of their shade canopies to Bowls Clubs throughout the State and to our knowledge were the only Queensland manufacturer to have the "runs on the board" so to speak.

The three man team, which included Managing Director, Barry Taylor, commenced construction in mid-September 2003 and handed over the completed project on time in mid-November.

We were impressed with the quality of the materials used in the construction and by the cooperation and ability of Greensafe staff to get the job done despite a few problems with underground water at our site.

We would recommend the Greensafe product and after only two months the benefit of having a shaded bowling green is taking effect and we are pleased with the favorable comments from members and visitors to our Club.
